

The Rolltainer - Wheeled Units

TrenStar SA offers a range of Rolltainers in various sizes to meet your requirements.

Each rolltainer is either hot dipped galvanized or electroplated. Each rolltainer is fitted with robust, long lasting fixed and swivel wheels to ensure mobility and ease of movement.

Pilferage resistant units with lockable / sealable gates, thick walled tube clad and fine grade expanded metal or weld-wire mesh provide added security to protect your assets. They are ideal for the picking / packing process in warehouses and distribution to stores across the country. All units are nestable and folded away to provide space saving during on-site storage and optimized returnable logistics. TrenStar provides a unique identification number on each rolltainer to facilitate tracking and tracing through the supply chain.

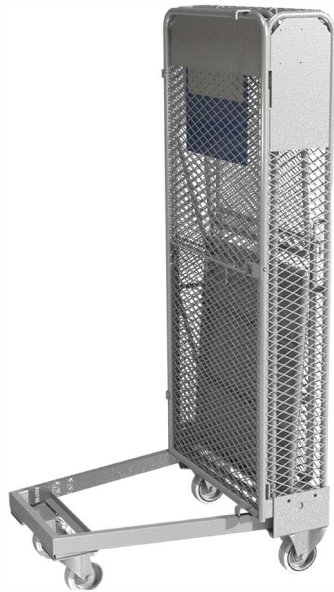

Used by FMCG and associated industries, hospitality groups, postal and courier services, and the automotive after market parts distribution.

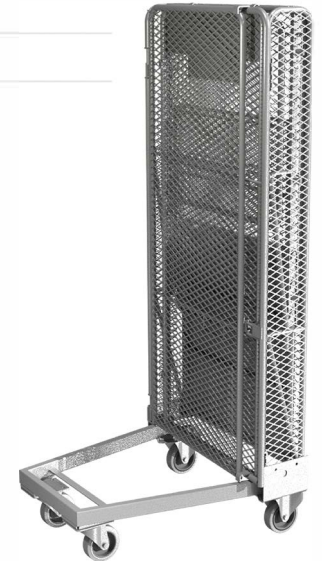

TYPE 8A

Overall Height	1790mm
Overall Length	840mm
Overall Width	730mm
Internal Height	1520mm
Internal Length	770mm
Internal Width	690mm
Internal Volume	0.80m3
Internal Castors	Heavy Duty, 125mm wheels 2 x fixed 2 x swivel
Capacity	600kg
Nett Mass	93kg
Gross Mass	693kg

TYPE 9B

Overall Height	1680mm
Overall Length	820mm
Overall Width	700mm
Internal Height	1420mm
Internal Length	750mm
Internal Width	630mm
Internal Volume	0.67m3
Internal Castors	Heavy Duty, 125mm wheels 2 x fixed 2 x swivel
Capacity	600kg
Nett Mass	71kg
Gross Mass	671kg
