

Rackable Plastic Pallet (100% Recyclable)

This product range is aimed at industries which focus on heavy load materials handling and product shipping - our Pallets will transport your products and components safely and with ease.

- ✦ Hygienic and easy to clean.
- ✦ Fully recyclable.
- ✦ Stackable and rackable capabilities.
- ✦ ISPM 15 exempt – no fumigation or heat treatment required.
- ✦ Weather resistant, inert and no splinters - less dust.
- ✦ Forklift friendly with 4-way entry.
- ✦ Compatible with automated conveyer systems and high racking systems.
- ✦ Fewer errors and machine stops in automated warehouses.
- ✦ Base support for even weight distribution.
- ✦ High resistance against impact.
- ✦ Rounded edges protect against pallet damage

Characteristics	Full Perimeter
Materials	HDPE
Ext. Top	1200mm x 1000mm
Static Load	6000 kg
Racking Load (with steel Reinforcements)	1400 kg
Racking Load (without steel reinforcements)	400 kg
Dynamic Load	2000 kg
Weight (with steel reinforcements)	29.9 kg
Weight (without steel reinforcements)	23.4 kg

Terms & Conditions Apply. E&EO
